QUESTIONS AND ANSWERS

QUESTION #1

We are seeking some clarification with regard to the specifications contained in your bid document.

1.3.1 Printer

g) 'GBC plastic coil oversized oval' can you be more specific. The description does not match up to GBC's terminology. They have a 44 Oval Die.

g) 'two-hole punching, three hole punching' if there is not a 2 HP die available can it be satisfied by utilizing 2 HP on the conventional staple finisher? Is a 2 HP even required?

ANSWER #1

g) GBC officially describes this die as "4:1, .2475 Pitch, Oversized Oval". It is for use in coil binding with a GBC "Digicoil" automatic color coil inserter.

Both two-hole punching and three-hole punching functionality are required. If two-hole punching can only be effectively included by incorporating it into the conventional staple finisher, then that is acceptable, provided it does not compromise the normal performance of the finisher.

QUESTION #2

We notice that Post Inserter Trays are not included in the specifications. Just want to determine if this omission is by design or oversight.

ANSWER #2

This is not an oversight. We do not have enough need for post inserting to warrant the specification.
